Engineering Aide: Sr. Engineering Aide

Provides technical support to engineers on a variety of technical tasks. Produces engineering documentation, reports and drawings. Performs detailed mathematical calculations using established formulas. Analyzes and develops documentation/reports. May conduct tests and record data to assist with engineering evaluations or analyses. Acts as point-of-contact for tool implementation and guidance. Works with vendors on tool support.

Knowledge

Contributes to the development of new concepts, techniques and standards. Considered an expert in the field within the organization.

Problem Solving

Develops solutions to complex problems that require the regular use of ingenuity and innovation. Ensures solutions are consistent with organization objectives.

Discretion/Latitude

Work is performed without appreciable direction. Exercises considerable latitude in determining objectives and approaches to assignment.

Impact

Effects of decisions are long-lasting and heavily influence the future course of the organization. Errors in judgment or failure to achieve results would result in the expenditure of large amounts of company resources.

Liaison

Serves as consultant to management and special external spokesperson for the organization on major matters pertaining to its policies, plans and objectives.

Minimum Education and Experience

10+ years of directly related experience. Bachelor's Degree (preferred) in Engineering, Business or a related field. Advanced MS Word, PowerPoint and Excel skills.
